Describe Tradeoffs and Backup Plans:

Example: Ideally, I would like a front double on an upper floor with John Doe (whose form I've stapled to mine), next to Josh Smith and James Symth. It is most important that we live near Josh Smith and James Symth. Next in importance is that we'd prefer to have a front double. Least important is that we are on a higher floor. If we can't get a front double, we want a back double, still near Josh Smith and James Symth. If we can't get a back double, we want a quad with Josh Smith and James Symth. We would want a east side quad on a upper floor, but we would rather have the upper floor than be on the east side.
